

src/main/java/it/unisa  
/biblioteca/gruppo21/archive  
/ArchiveAstratto.java

```
graph TD; A["src/main/java/it/unisa<br/>/biblioteca/gruppo21/archive<br/>/ArchiveAstratto.java"] --> B["java.io.File"]; A --> C["java.io.IOException"]; A --> D["java.util.List"];
```

The diagram illustrates the imports used in the file `src/main/java/it/unisa/biblioteca/gruppo21/archive/ArchiveAstratto.java`. Three blue arrows point from the source file box to three separate boxes below, each representing an imported class: `java.io.File`, `java.io.IOException`, and `java.util.List`.

java.io.File

java.io.IOException

java.util.List
